Meet Coach Ben!

He’s been volunteering with us since March and currently works at Modesto Junior College. He helps run TRIO, a program that helps low income and first generation students prepare for college. They do this through mentorships, career and academic advising, field trips, and financial literacy.

Ben’s favorite part about volunteering at First Tee is when a participant has been working really hard on something and they finally get it down. He loves seeing them accomplish what they’ve been working on.

We’re so happy to have Ben as a volunteer with us. He is a natural teacher and coach. Ben sees the potential in our participants and helps them achieve what they set their mind to.

Thanks for all you do for First Tee - Central Valley!
